

## EX101x - Power Map Instructions

1. First, go to Microsoft's Power Map Preview webpage to download the add-in:  
<http://www.microsoft.com/en-us/download/details.aspx?id=38395>
2. Open the .exe file and indicate that it is allowed to make changes to your computer
3. Next, the install wizard will tell you which components will be installed, press "Install"
4. Then, you will be prompted to agree to Microsoft's Visual C++ licence, agree to this and press install

5. Once the this setup is complete, you can close that window and begin the Power Map Preview installation wizard

6. Step through this wizard and close the window once the installation is complete.
7. Now, open up excel 2013 and you should see a "Map" icon under the "Insert" ribbon in the top menu.
